

Osceola-Lake & Mecosta Conservation Districts

"Managing Our Natural Resources"

Spring/Fall 2021 Seedling Catalog

Important Ordering and Pickup Information (Please Read Carefully)

1. Complete the "2021 Spring Tree Order Form". Send order form along with deposit or payment in full to the District in which your property is located. **All orders under \$100 must be paid in full at time of ordering. Orders more than \$100 will require a 50% deposit. Orders will not be placed without receipt of a deposit.** Remaining balance is due before pick-up. Orders may be placed by mail, phone or email and can be paid by check or credit card. Visa, MasterCard and Discover are accepted.
2. If your property is located in **Osceola County or the East Half of Lake County**, mail your order form with payment to:
Osceola-Lake Conservation District
138 W. Upton, Suite #2
Reed City, MI 49677
Phone: (231) 465-8012
Website: www.osceolalakecd.org
3. If your property is located in **Mecosta County**, mail order form with payment to:
Mecosta Conservation District
18260 Northland Drive
Big Rapids, MI 49307
Phone: (989) 309-9229 or (231) 796-0909 x3
Website: www.mecostacd.org
3. **Spring ordering deadline is Wednesday, April 7, 2021, 2:00 p.m.** Orders received after this date will be filled based on availability.
4. Quantities are limited and orders will be filled on a first-come first-served basis.
5. We do not guarantee survival. Our liability ceases when seedlings are delivered to buyer or custom planter.
6. *"It is unlawful for these trees, shrubs and other plants to be resold with the roots attached in accordance with the Insect Pest and Plant Disease Act, P.A. 189 of 1931, as amended."*
7. Pick-up location will be at the Paris Park Fish Hatchery. **Orders are not shipped.** You will be notified by postcard regarding dates and times for pick-up. Dates will also be posted on our website. **Tentative pick-up dates: April 23 & 24.**
8. If you are unable to pick-up your order on the scheduled dates you must make other arrangements. **We will not be responsible for lost or stolen trees that are not picked up on the scheduled pick-up dates.**
9. Let us know if a tree planter is picking up your order. The order must be paid in full prior to pick-up.
10. The District reserves the right to reduce or cancel orders and refund payments due to reasons beyond our control.
11. **No refunds on spring orders cancelled after March 31st.** Canceled orders paid by credit card will be charged for credit card processing fees.
12. Save this catalog for our Fall Sale. **(S)** indicates availability in the spring and **(F)** indicates availability in the fall.

FOR RECOMMENDATIONS ON WHAT SPECIES TO PLANT OR HOW MANY TREES/SHRUBS TO PLANT IN A GIVEN AREA, CALL YOUR LOCAL CONSERVATION DISTRICT. WE ARE HERE TO ASSIST YOU.

LIKE US ON FACEBOOK

Deciduous (Spring only)

Red Oak Quercus rubra (S) <i>Height: 50-70 feet, Open to partial shade, Sandy to moist soils</i> Fastest growing of our native hardwoods. The wood is reddish brown. Sharply toothed 7-11 lobed leaves, turning red in autumn. Uses: Excellent for timber production and wildlife. Quantity: 25 Size (12-18") \$30	White Oak Quercus alba (S) <i>Height: 50-70 feet, Open to partial shade, Sandy to moist soils</i> Large majestic native tree with wide spreading branches, and leaves of blue-green turning to many colors in fall. Slow to medium growth rate. Provides sweet acorns that are loved by wildlife. Uses: Timber production and wildlife. Quantity: 25 Size (12-18") \$32	Black Walnut Juglans nigra (S) <i>Height: 50-75 feet, Full sun, Moist soils</i> Queen of American cabinet woods. An important food source for wildlife. Fruit matures in Autumn with nutmeat sweet and edible. Growth is moderate to slow. Uses: Very valuable timber and wildlife tree. Quantity: 25 Size (12-18") \$30
Sugar Maple Acer saccharum (S)  <i>Height: 50-70 feet, Shade tolerant, Most soil types</i> This beautiful large shade tree has dark green foliage turning yellow to orange to fiery red in fall. The sap is used to make maple syrup. Slow to medium growing. Uses: Shade tree, lumber, and wildlife. Quantity: 25 Size (12-18") \$30	Red Maple Acer rubrum (S)  <i>Height: 40-60 feet, Full sun, Most soil types</i> This native tree is medium to fast growing. It has small red flowers in early spring and brilliant red fall color. Very drought tolerant. Uses: Shade tree, wildlife, and ornamental. Quantity: 25 Size (12-18") \$30	Quaking Aspen Populus tremuloides (S) <i>Height: 50-60 feet, Full sun, Shade intolerant, Will tolerate a range of soils</i> Also known as trembling aspen, smalltooth aspen, or "popple." Medium to large, fast growing tree. Uses: timber production, excellent wildlife food and cover. Quantity: 25 Size (12-18") \$32
Black Cherry Prunus serotina (S)  <i>Height: 60-80 feet, Becomes shade tolerant as it grows older, Prefers sandy to loamy, well-drained soils</i> Fruit valuable to wildlife; wood valuable timber resource. Quantity: 25 Size (12-18") \$28		Fragrant Sumac Rhus aromatica (S)  <i>Height: 2-6 feet, Full sun to partial shade, well-drained soils</i> Relatively slow growing shrub. Leaves turning orange to red in autumn. Aromatic when crushed. Attracts birds and butterflies. Quantity: 25 Size (12-18") \$28

NOTE: The bee icon indicates a pollinator friendly species.

Wildlife Shrubs (S)pring / (F)all

Red-Osier Dogwood *Cornus stolonifera* (S,F) 

Height: 5-8 feet, Full sun to shade, Moist to well drained soils

This multi-stemmed, spreading shrub has dark green foliage turning purple in the fall. Small white flowers in June produce white berries in fall.

Quantity:

Size (12-18")

25

\$30

50

\$40

100

\$56

Gray Dogwood *Cornus racemosa* (S,F) 

Height: 6-8 feet, Sun to shade, Wet to well drained soils

Multi-stemmed shrub with grayish-green foliage becoming reddish in autumn. Flowers in May-June producing red berries July through September.

Uses: Ornamental; sometimes used for hedges

Quantity:

Size (12-18")

25

\$38

50

\$48

100

\$60

Common Elderberry *Sambucus canadensis* (S) 

Height: 8-12 feet, Full to partial sun, Moist soils

A stout, strong-growing shrub with white flowers (July), followed by purple-black fruit. Readily used by wildlife. Fruits may be used in jellies, wines and pies.

Quantity:

Size (12-18")

25

\$28

Silky Dogwood *Cornus amomum* (S,F) 

Height: 6-10 feet, Sun to shade, Moist to well drained soils

Dense, multi-stemmed shrub. Blue colored berries in September. Grows on sandy loam and clay uplands and wetlands. Good for landscape plantings on wet sites.

Quantity:

Size (6-12")

25

\$32

50

\$42

100

\$60

**American Crabapple** (S) 

Height: 10-30 feet, will grow on a range of soils; prefers full sun to moderate shade.

Exhibit many different growth habitats. Good wildlife source.

Quantity:

Size (12-18")

25

\$32

Nannyberry *Viburnum lentago* (S,F)

Height: 15-20 feet, Sun or shade, Most soil types

This shrub has white flower clusters in June followed by bluish-black berries ripening in the fall. Recommended for wildlife plantings.

Quantity:

Size (6-12")

25

\$28

American Hazelnut *Corylus americana* (S)

Height: 6-8 feet, Prefers full sunlight and grows best in moist to dry soils

Produces a nut in August-September which is a very good source of food for wildlife.

Quantity:

Size (12-18")

25

\$30

Winterberry / Michigan Holly *Ilex verticillata* (S) 

Height: 6-12 feet, Moderately shade tolerant, tolerant of high water tables

Produces showy red fruit in September-October persisting into mid-winter.

Quantity:

Size (6-12")

25

\$30

Eastern Redbud *Cercis canadensis* (S)

Height: Up to 30 feet, Many soil types but prefers moist, well-drained loams

Small native tree found in the forest understory. Good choice for brightening up your spring landscape.

Quantity:

Size (6-12")

25

\$28

American Plum *Prunus americana* (S) 

Height: 10-15 feet, Prefers full sun, Well-drained soils

Heavy floral display appears in May to early June. Plums ripen in August and September. This native plum provides good cover and food for wildlife on dry sites.

Quantity:

Size (12-18")

25

\$28

Ninebark *Physocarpus opulifolius* (S) 

Height: 8 feet, Full sun to partial shade, Moist soils

Native wetland edge species. Pinkish to off-white flowers give way to small nutlet containing seed heads by early autumn. Recommended for border and screens.

Quantity:

Size (12-18")

25

\$24

American Mt. Ash *Sorbus americana* (S) 

Height: 10-30 feet, Moderately shade tolerant, Tolerates highly acidic, purely organic soil

Attractive small tree. One of the most beautiful flowering trees of the northern forest. Bright red berries in the fall.

Quantity:

Size (6-12")

25

\$28

Highbush Cranberry *Viburnum trilobum* (S)

Height: 10 feet, Moderately shade tolerant, Moist soils

Seen along streams, in open or lightly shaded swamps and wet grounds. Produces clusters of white flowers and scarlet fruits, which birds eat in late winter. Excellent wildlife plant.

Quantity:

Size(6-12")

25

\$24

Arrowwood *Viburnum dentatum* (S)

Height: 8-10 feet, Prefers well-drained soils and can tolerate some shade

An upright growing shrub with fruit in late summer often found growing along woodland borders and road sides.

Quantity:

Size (6-12")

25

\$25

**Spicebush** *Lindera benzoin* (S)

Height: 6-12 feet, can tolerate dry to wet soils and prefers to grow in part to full shade.

An aromatic shrub common to swampy woodlands, forests and riparian areas.

Quantity:

Size (12-18")

25

\$32

Apple Trees (Spring only)

Apple Tree Wildlife Habitat Packets

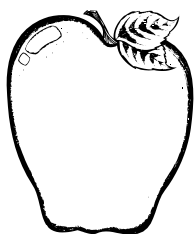

This is our most popular wildlife habitat enhancement packet! Apple tree packets will consist of five 2-year old trees, 3-4 feet in height, 5/8 inches in diameter, on mm106 root stock. These trees will grow to a height of 10-15 feet and are semi dwarf.

This year the packets will contain a combination of any of the following five species: Aztec Fuji, Honeycrisp, Redcourt, Ambrosia and Gala. Additional information on each variety will be available at pick up.

PLEASE NOTE: Due to limited quantities, we ask that you limit your order to 4 bundles per customer. After the ordering deadline, if we still have a sizeable reserve, we will gladly accommodate larger orders.

Price: \$85.00 per bundle of 5

Pear Trees (Spring only)

Pear Tree Wildlife Habitat Packets

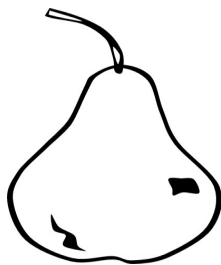

This is our first year providing pear trees. Pear tree packets will consist of two 2-year old trees, 3-4 feet in height, 5/8 inches in diameter. These trees will grow to a height of 18-25 feet and are semi dwarf to semi standard.

This year the packets will contain a variety of Harrow Sweet and Sunrise pear trees. Both of these varieties are disease-resistant pear that have shown impressive resistance to fire blight.

PLEASE NOTE: Due to limited quantities, we ask that you limit your order to 2 bundles per customer. After the ordering deadline, if we still have a sizeable reserve, we will gladly accommodate larger orders.

Price: \$34 per bundle of 2

"Landscape Friendly Native Plants" Presentation - Friday, June 4, 2021

Reed City Depot (200 N Chestnut St., Reed City, MI 49677) - 1 p.m. to 2 p.m.

Homeowners can benefit birds and other wildlife by simply selecting native plants when designing their landscape. The benefits of utilizing native plants include: lower maintenance, water conservation, habitat for pollinators and native wildlife, and natural beauty. The presentation will highlight showy native plants and the benefits of going with native plants. Come prepared to fill in your landscape with natives that will bloom from April through October.

The presenter for this program will be Kathy Fiebig. Kathy is one of the founders of the Evert Garden Club and former Extension Master Gardner.

Many of the native plants covered in the presentation will be available for sale. To get specific plants you want, pre-ordering is recommended. Please see the order form above. Additional species not listed above can be found by downloading the order form on our website, [mecostacd.org/native-plants-sale](https://www.mecostacd.org/native-plants-sale)

Books for Sale

Wildflowers of Michigan: Field Guide by Stan Tekiela **Price: \$16.95** - This 4" x 6" book is the perfect pocket size for taking on walks to use in identifying wildflowers along the way. Each of the approximately 200 varieties of Michigan wildflowers has a full page color photograph to aid in identification, and descriptions containing: family, height, flower, leaf, bloom time, origin, habitat and range, along with authors notes on each specific variety.

Birds of Michigan: Field Guide by Stan Tekiela **Price: \$14.95-** At last! Your problems in identifying that bird out on your bird feeder is immediately made easier with this beautiful field guide which includes only the birds that occur in Michigan. A full page color photo and a full page description is included for each of the 112 bird species.

Trees of Michigan: Field Guide by Stan Tekiela **Price: \$12.95** - This book will allow you to quickly identify 105 of the most common trees in Michigan- nearly all which are native to the state. This guide also includes non-native trees that have been naturalized in Michigan. This book makes no attempt to identify cultivated or nursery trees.

Mammals of Michigan: Field Guide by Stan Tekiela **Price: \$14.95** - This unique field guide includes all 66 of Michigan's mammals, from mice to moose. Learn facts about size, habitat, range, young and more.

Butterflies of Michigan: Field Guide by Jaret C. Daniels **Price: \$16.95** - Identify 147 species of Michigan butterflies. This field guide includes illustrations, full-color photos, and a Q & A section for things you've always wondered about butterflies.

Reptiles & Amphibians of MN, WI, MI: Field Guide by Stan Tekiela **Price: \$14.95** - This is the standard for reptile and amphibian field guides. It contains all 68 species of turtles, snakes, lizards, salamanders, frogs and toads in Minnesota, Wisconsin and Michigan.

Wild Berries & Fruits of MN, WI, MI: Field Guide by Teresa Marrone **Price: \$14.95** - Learn what's edible and what to avoid with this easy-to-use field guide. It contains 165 wild berries and fruits in Minnesota, Wisconsin and Michigan.

Pollinators of Native Plants by Heather N. Holm **Price: \$22.95** (retail value \$29.95) - With its easy to use format, this book provides information on how to attract, plant for and identify pollinators with native plants. Beautifully designed and illustrated with over 1600 photos of plants and insects, the book includes information on pollination, types of pollinators and beneficial insects, pollinator habitat and conservation as well as pollinator landscape plans.

Other Conservation Products

Home & Garden Compost Bin Price: \$38.00
Strong and lightweight, Presto's compost bins turn yard and food waste into rich, fertile soil. The adjustable bins store, aerate and compost up to 14 bushels of yard and kitchen waste. The 30" high freestanding one-piece unit is light weight, easily assembled without tools and it stands on any type surface.

Terra-Sorb Root Gel
Terra-Sorb Fine Hyrogel aids in the treatment of bareroot seedlings to keep the roots moist during handling. Drying out of the root system is the leading cause of mortality. This product improves survival and growth of tree seedlings after planting. Terra-Sorb is a fine powder that you mix with water. One ounce will cover approximately 900+ seedlings.

Price: 1 oz. \$4.00 - 8 oz. \$12.00 - 1 lb. \$20.00

5 Ft. Max Grow Tube Tree Shelters
Protect seedlings from animals, wind damage and climate conditions. Includes pre-installed ties and netting to go over the top to protect young saplings. Life of 4-5 years. Tree stakes not included.
Price: \$5.00 each

Nutri-Pak Fertilizer Packets
Scientifically designed fertilizer packet formulated to continuously fertilize over a five year period. Each packet contains 16% Nitrogen, 8% Phosphoric Acid, and 8% Potash.
Caution: over fertilization can damage seedlings.
Price: \$1.25 each or 6 for \$7.00

Tree Planting Bars
Excellent tool used for planting seedlings in non-rocky soil that is easy to penetrate. The 3" x 11" blade is wedge-shaped in cross section. Each bar has a footstep, handle and weighs approx. 7 lbs.
Price: \$25.00 or \$5/day rental

Tree Flags
Flags are used to mark where seedlings are planted. 4" x 4.5" florescent flag on a 30" wire stake. **Price: \$0.20 each or 100 for \$15.00**

"Trees Planted" & "No Trespassing" Signs
Constructed with heavy grade aluminum, they will last for years to come. Each sign measures 7.5" x 11" and features the Michigan Conservation District logo. Black print on high visibility yellow or orange background.
Price: \$3.00 each
